Following is information about the Hazardous Waste Small Business program and the Inventory List.

Please complete the Inventory List, including your EPA I.D. number. If you do not have this number, instructions on how to obtain it from the Department of Toxic Substances Control is included.

Also indicate the S.A.F.E. Center location and date that you wish to drop off your waste.

Return the completed Inventory List and Certification Statement by fax to (310) 307-7457, or by email 4HCESQG@cleanharbors.com.

Upon receipt of your Inventory List, your appointment will be scheduled and an appointment confirmation will be sent to you via fax or email.

CESQG (CONDITIONALLY EXEMPT SMALL QUANTITY GENERATOR) PROGRAM

What is the CESQG Program?

State and Federal laws require that all businesses that generate or accumulate hazardous and/or universal wastes to comply with regulations for proper disposal of these wastes. Generators of small quantities of hazardous and/or universal wastes may be conditionally exempt from many of the regulations if they deliver the waste to permitted collection sites. Clean Harbors operates the CESQG Program in coordination with the City of Los Angeles to provide small quantity generators with a legal and affordable solution to hazardous and/or universal waste disposal.

Who can qualify for the Program?

Your business must be located within the County of Los Angeles and generate **less than 220 pounds** or **27 gallons** of hazardous waste (e.g. paints, solvents, aerosol cans, photographic chemicals, asbestos) **per month**. Universal wastes such as fluorescent lights, batteries and electronics are not subject to weight or quantity limits but the weights and quantities must be consistent with what would normally be generated by a small business.

These guidelines are set out in the Code of Federal Regulations 40 CFR 261.5 and the California Code of Regulations Title 22, Section 66260.10.

Why should you use this program?

- Competitive pricing as compared with private hazardous waste transporters.
- Exemption from hazardous waste manifests filing and document fees. The City of Los Angeles will generally assume generator status of the waste collected.
- Reduction in State and Federal taxes on hazardous waste disposal.

How do you participate?

Participation is by appointment only. For more information or to register for the program, call Clean Harbors at (310) 256-0190. A disposal fee will be charged based on the type and amount of waste.

The Inventory List and Certification Form must be completed and returned by the Friday prior to the Wednesday appointment date you desire. Fax to (310) 307-7457 or email to 4HCESQG@cleanharbors.com.

What information should I have when I call?

A clear and complete description of your hazardous waste is necessary to determine whether the waste can be accepted into the program. You will have to provide the following information:

- Name, address, phone and fax numbers of your company.
- Estimate of how much waste is generated monthly and annually.
- Chemical or trade name of waste (e.g. MSDS).
- Size, type and number of containers of waste.

If you regularly generate any amount of hazardous waste, you are required to provide us your **EPA ID number**. For more information, call (310) 256-0190. If you do not already have an EPA ID number, please call the California State Department of Toxic Substances Control at 1-800-618-6942 or log on to www.dtsc.ca.gov to register and receive your EPA ID number.

INVENTORY LIST AND CERTIFICATION STATEMENT

Company Name: _____ Date: _____

Address: _____

Phone: (____) _____ Fax or Email: _____

EPA ID NUMBER (required): _____ Types of wastes generated: _____

Amount of waste generated Monthly: _____ Annually: _____

I certify that the following information is correct and I have read and understand the requirements for participation in the Conditionally Exempt Small Quantity Generator Program. I further certify that I am a Conditionally Exempt Small Quantity Generator as defined by Federal and California State Regulations, and this quantity of waste does not exceed the specified limits for the type of waste being disposed. If this waste is later found to exceed small quantity limits or contain materials not accepted under this program, I agree to complete a hazardous waste manifest and comply with other state regulations as appropriate.
